They are looking for patients or their carers/family to complete the survey, which looks at ways of moving forward to improve services for all affected by ichthyosis. To find out more about this survey, please contact the ISG in the first instance.

Join Us On Facebook

The ISG have 168 members on Facebook including the UK’s ISG and 100 members in the USA. The ISG have had a huge increase in membership since the launch of their Facebook page. We invite you to join and become friends with the ISG Facebook page. Please help us to spread the word on Facebook.

Would You Like To Make Contact With Other Families Or Individuals Affected By Ichthyosis?

The ISG have 1,000 members from all over the world. These are families and individuals including those affected either by themselves or their children, who are using our website, smartphone app or our emails. They are looking for young people to test out, in their own homes, a new 7 week online course to help young people to manage their ichthyosis and social contact. This is quite a recent initiative and we are looking for participants to help us with this and to assist with the development of the course.

Contact A Family

The ISG welcomes requests for contact with other families around the world. We have people from over 50 countries and regions in touch with us. We have people from all over the USA, Canada, Australia, India and Malaysia and many others. In the past year, we have had requests for contact from people in Brazil and Nigeria.

Below are the ISG’s Regional Contact details.
